

### **REMARKS/ARGUMENTS**

Applicants have amended their specification, and have amended their claims to more particularly point out their invention. A substitute specification has been provided as required by the Examiner. The claims have also been amended to resolve indefiniteness issues. Figure 1, 4, 7, 8a and 8b have been annotated to show proposed drawing changes. A substitute Abstract has also been supplied. Applicants request the USPTO to withdraw the objections and to reconsider and allow this case in view of these amendments.

#### **Information Disclosure**

In accordance with Rule 97, the undersigned attorney submits a list of items on the attached form PTO-1449. See attached copies and compact disk. The Examiner is requested to initial the attached form PTO-1449 and to return a copy to the undersigned as an indication that the listed documents have been considered and made of record in this case.

The Examiner is also referred to commonly assigned copending application serial number 10/240,317 filed October 1, 2002, entitled "Control Device For Adjusting A Different Slope Angle, Especially Of A Mobile Radio Antenna Associated With A Base Station, And Corresponding Antenna And Corresponding Method For Modifying The Slope Angle" and to the prior art cited therein.

GÖTTL, M. et al.  
Appl. No. 10/049,809  
March 30, 2004

All outstanding issues have been addressed and this application is in condition for allowance. Should any minor issues remain outstanding, the Examiner should contact the undersigned at the telephone number listed below so they can be resolved expeditiously without need of a further written action.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
